

## Battery Testing Consortium User Agreement

Thank you for joining the High Voltage & Energy Storage Group Battery Testing Consortium (BTC). Access to the BTC is granted to registered Formula Student / SAE teams that have signed up using a university email. Individuals from member schools that use the BTC agree to the following terms:

1. Data acquired is used at the Individual's risk. All data in the BTC was acquired in thermally controlled conditions and the High Voltage & Energy Storage Group does not ensure performance and/or safety for the Individual's operating conditions. The BTC data is licensed under [CC BY-NC-ND 4.0](#) and the conditions in this User Agreement.
2. An Individual may use the data within their degree (Formula Student, Formula SAE, Dissertations projects, etc).
3. The data may not be used outside of the Individuals degree (e.g. placements, summer jobs, post-graduate positions). It is prohibited to donate or sell the data to any other individual, group, team, or university or posting it on the internet. Commercial use of this data is prohibited.
4. Presentation/publication of the data in de-identified graphical or tabular form is permitted, provided the author acknowledges the Formula Student Battery Testing Consortium (BTC).
5. The university's FS/FSAE vehicle will display the HVES decal in every year that BTC data is used to contribute to the vehicle design.
6. The High Voltage & Energy Storage Group reserves the right to remove any individual and / or team at any time. Violation of the User Agreement will result in removal from the BTC.

If there are any questions or concerns regarding the above, please contact [hves@brookes.ac.uk](mailto:hves@brookes.ac.uk).
